Near the intersection of
Staples Mill and Parham Roads

Why has America enjoyed so much personal freedom and prosperity compared to the rest of the world?

“Overview of America” gives you a big-picture vision of the principles behind our success. It explains in a simple fashion the different systems of government throughout the world and the different economic principles underlying each type of government — illustrating the great virtues of our unique Constitutional Republic. One of the most popular DVDs produced by The John Birch Society, it has been viewed millions of times.

“Standing the Test of Time” quickly reviews some commonly known “facts” that turn out to be wrong and then goes on to challenge and correct major attacks against The John Birch Society made by those working to change our unique Constitutional Republic.
